### DETAILED ACTION

1. Claims 1,2,4-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shultz (DE 19912149) in view of Counter (Pulp and Paper Canada article).

The claims are rejected for the reasons given in the previous Office Action, mailed 4-22-2003.

2. Applicant's arguments have been considered but are deemed unpersuasive of patentability.

It is urged that the c teaching of Counter cannot be combined with Shultz since Counter is directed to coating and not internal filling as in Schultz. The fact remains that Counter teaches that for the purposes of opacification, talc is used advantageously as an extender for fillers containing  $\text{TiO}_2$ . It is further urged that Counter teaches additional pigments to the  $\text{TiO}_2$  and talc. Counter is merely cited to teach the use of talc as an extender. In any case, the present claims are open to presence of other pigments by virtue claim language, "comprising" and "comprises".

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
